EDUCATION

- MCA (Storage & Cloud Technology) | Jain University, Bengaluru | 2025–Present | CGPA:8.04
- BCA — Chandigarh University, Mohali (2022–2025) | CGPA: 7.77

SKILLS

Languages: Python, Java, SQL, JavaScript, PHP, C/C++, HTML5, CSS3

Technologies: Flask, Power BI, Pandas, NumPy, Matplotlib, Scikit-learn, XGBoost, AWS, MySQL

Tools: Git, GitHub, VS Code, Android Studio, Figma, Excel

PROFESSIONAL EXPERIENCE

Application Engineer Intern (AI/ML & Data Science) | Technologies Global Pvt. Ltd.

May 2026 – Present | Ongoing (350 Hours)

- Undergoing industry-level training in Artificial Intelligence, Machine Learning, Python, and Data Science.
- Working on hands-on assignments involving data analysis, machine learning concepts, and real-world problem-solving.
- Gaining practical exposure to industry workflows and software development practices.

Mobile Application Development, Chandigarh University

May 2024-Jun 2024

- Developed proficiency in Java for Android app development.
- Learned mobile UI/UX design principles and implemented responsive layouts.
- Gained hands-on experience with mobile development frameworks: Android Studio.

PROJECTS

SkySense – Weather Analytics & Rainfall Prediction System | Python, Power BI, Scikit-learn, XGBoost

- Built an end-to-end weather analytics and rainfall prediction pipeline using Machine Learning.
- Engineered ETL workflows, feature engineering, model training, and prediction generation.
- Evaluated multiple ML models using MAE, RMSE, and R^2 and developed interactive Power BI dashboards.
- GitHub: <https://github.com/shivamakashproj/SkySense>

Krishi Yantra – Farmer Equipment Rental System

- Developed a web-based equipment rental platform for farmers using PHP, MySQL, and Bootstrap.
- Designed modules for equipment listing, renting, and user/admin management.
- Implemented CRUD operations, role-based authentication, and database integration.
- Improved accessibility by enabling farmers to rent machinery instead of purchasing it.
- GitHub: <https://github.com/shivamakashproj/krishi-yantra>

careAYU - Healthcare App

- Developed a healthcare Android application using Java, XML, MySQL, and Android Studio.
- Built modules for lab tests, doctor profiles, and medicine ordering system.
- Integrated health updates and user order history for better user experience.
- GitHub: <https://github.com/shivamakashproj/careAYU>

ACHIVEMENTS / CERTIFICATIONS

- Earned 2nd position in school Science Exhibition.
- NPTEL Certification on Privacy And Security In Online Social Media.

INTERESTS

Photography & Editing , Data Analytics , Machine Learning , Business Intelligence , Problem Solving , Team Collaboration.
